NORGE - NORUEGA - NORWAY

PRESENTASJON

La meg presentere denne artistiske gruppen valgt av "Det reisende galleriet" ur-folks biennial i Ecuador.

Det er en gruppe med kunstnere fra mitt hjemland og andre steder, de har blitt valgt ut på grunn av sine internasjonale karrierer som skapere, men også for teknikk og tematikk.

Håper dere vil nyte og glede dere med denne utstillingen og håper at flere av de utstilte bildene ikke reiser tilbake til Ecuador.

WHO ARE WE?

The Intercontinental Biennial of Millenarian Art, is the pragmatic outcome of a process experienced over the years, by a collective of artists, cultural groups, institutions and organizations from different cultures and countries.

Among our objectives is to strengthen and develop systems of intergenerational transmission of knowledge, preserved and guided by the cultural elements of our peoples.

It's our job to cultivate and share with artists and audiences around the world, the magic and wisdom of the ancient art through exhibitions and workshops, integrated into a Learning Community of itinerant character.

Even though our spirit is nomadic and grounded in the philosophy of the Roving Workshop, we have headquarters in the city of Quito, capital of the Republic of Ecuador, with representatives and associated groups in various countries.
